İLKERLER INDUSTRY SALES AND MARKETING INC

İlkerler Industry Sales and Marketing Inc was established in 2006. We have become the leader of the sector by specializing in the supply and sale of filters used in many sectors and by adding the world's leading brands to its portfolio over time.

Our portfolio includes Globally known and trusted brands such as American Fleetgard, American Parker, German Mahle, American Stanadyne, American Sure filters, Russian Gazprom and Italian G Energy mineral oils.

With our brand and product range, we have a broad range of customers from different sectors. Examples include, automotive, truck and bus, construction and mining construction machinery, agriculture, generator, marine, forklift, compressor, industrial hydraulic power plants.

LUBRICANTS

Mineral Oils
Synthetic Oils
Industrial Oils
Food Oils
Textile Oils
Printing Press

FILTERS

Air Filters
Oil Filters
Fuel Filters
Pollen Filters
Cabin Filters
Hydraulic Filters

CHEMICALS

Antifreezes
Additives Sprays
Glass Wiper
Liquids Gases

DIESEL FUEL SYSTEMS

Pickup Truck

FLEETGUARD FILTERS

Cummins Filtration is the leading designer and manufacturer worldwide for filtering products for heavy-load diesel engines. It manufactures its leading filtration products that are compatible with Cummins and a wide range of other engine models.

Cummins Filtration is a global company with corporate, manufacturing, distribution and retail outlets all over the world. It provides service with 5 technical centers, 13 production facilities and more than 33,000 retail outlets worldwide. Cummins Filtration is the owner of Fleetguard brand.

Fleetguard offers a full range of filtering products to meet customers' needs in a wide range of applications including Agriculture, Bus and Truck, Construction, Defense, Generator Sets, Industrial, Mining, Marine, Oil and Gas, Railway.

Fleetguard also produces important cooling system products and additives. They are our common stock cultivar Industrial Policy and supply quickly overseas / domestic logistics service in Turkey's geography is our single point of contact for all filter solution.

Fleetguard Product Range

- Fuel Filters
- Oil Filters
- Air Filters
- Hydraulic Filters
- (industrial and mobile)
- Water Filters
- Special Applications

Advantages of Fleetguard Products

- Long-term uninterrupted work
- Increased operator comfort
- Lower operating costs
- Reduced carbon footprint
- Wide product range

PARKER FILTERS

Parker Filtration is the world's leading manufacturer in Commercial, Mobile, Aerospace Industry, Climate Control, Electromechanical, Filtration, Fluid and Gas Transfer, Hydraulics, Pneumatics, Process Control and Sealing, with an annual turnover exceeding US \$ 10 billion. Parker provides services to more than 400,000 companies by providing product and system solutions in over 1,200 sectors.

Parker Filter; Extensive production and engineering experience for Heavy Duty Construction Equipment, Construction and Mining Equipment, Marine, Forklift, Agriculture and all kinds of Industrial Facilities and Factory applications has a wide range of products in hydraulic oil filtration and pollution equipment.

Parker is the most important solution address in the hydraulic filtration industry with its Low Pressure Tank Suction and Return Line Filters, High Pressure Single and Double Filter systems, Portable Filter Systems, Tank Ventilation Filters, Oil Pollution Test Devices and all types of hydraulic filter equivalent types.

Parker - Racor has been innovating in Diesel Fuel Filtration and Fuel Water Separation for more than 30 years, providing quality filtration solutions to original equipment manufacturers and end consumers.

Racor's fuel water separator filter systems provide quality protection for engines operating in different points and different environments of the world with Heavy Duty Machinery, Trucks, Buses, Ships and Yachts, Generators, Jet Fuel Filtration and Fuel Tank Filtration applications.

Racor technology eliminates uncertainty in engine protection. Racor's production quality and attention to detail ensures that every customer gets the filtration and separation solution they are looking for. Racor is the most known and trusted brand in heavy duty fuel water separator filter systems.

MAHLE

MAHLE FILTERS

The MAHLE Group is one of the 30 largest automotive suppliers worldwide. In addition to being a leading manufacturer of internal combustion engine parts, systems and peripherals, MAHLE is also one of the top 3 suppliers in piston systems, cylinder components valve mechanism systems, air and liquid filter systems.

Original parts market standards should also be available for the aftermarket industry. The MAHLE brand represents engine parts that are indispensable quality products in both the original parts and the aftermarket market. Mahle has a range of filters covering numerous application areas in passenger cars, light and heavy commercial vehicles, construction equipment and agricultural sectors.

MAHLE

Mahle has been actively involved in hydraulic filter systems since the early 1960s. Mahle Group's expert team and quality product range has made MAHLE Industrial Filters one of the world's leading filter system manufacturers in fluid technology filters and equipment.

Mahle's Product range consists of Pressure Filters, Double Filters, Bypass Filters, Suction Filters, Return Line Filters, Ventilation Filters and filter and service equipment used for the protection of Hydraulic Fluids and Oils.

SURE FILTERS

SURE Filter has a complete product range including air filters, fuel filters, oil filters, hydraulic filters, coolant filters and compressor air / oil separator filters. These products are designed to meet the needs and highest requirements of modern engines.

SURE Filter meets filter application needs in the Automotive, Construction Machinery, Truck and Bus, Agriculture, Marine and Energy sectors with ISO / TS 16949: 2002 quality certified

Stanadyne was founded in 1876 under the name The Hartford Machine Screw Company, and first entered the production of precision machine parts and bolts. The company, which used to support companies with the aim of developing automatic machines, started to produce the fuel distributor pump used in diesel engines in 1940.

Today, Stanadyne has become one of the leading companies in diesel engine technology and has become a business partner that increases the performance of vehicles by meeting more than the needs of engine manufacturers.

STANADYNE is America's leading company in the design and production of pumps for Fuel Injection Pumps, Injectors, Diesel Fuel Filters and Water Separators, Electronic Fault Detectors, Fuel Heaters and Diesel Fuel Systems.

G-Energy is the first class motor oil brand of Gazprom Neft. G-Energy oils are designed for the most modern cars of European, US and Japanese production. It is produced in Italy and Russia. It has received approvals from the world's leading 19 engine manufacturers such as Mercedes-Benz, Volkswagen, General Motors and Renault. Currently sold in more than 50 countries.

- Engine Oils
- Transmission Oils
- ATF

- Greases
- Antifreezes

- Engine Oils
- Transmission Oils
- ATF

- Greases
- UTTO/STOU
- Antifreezes

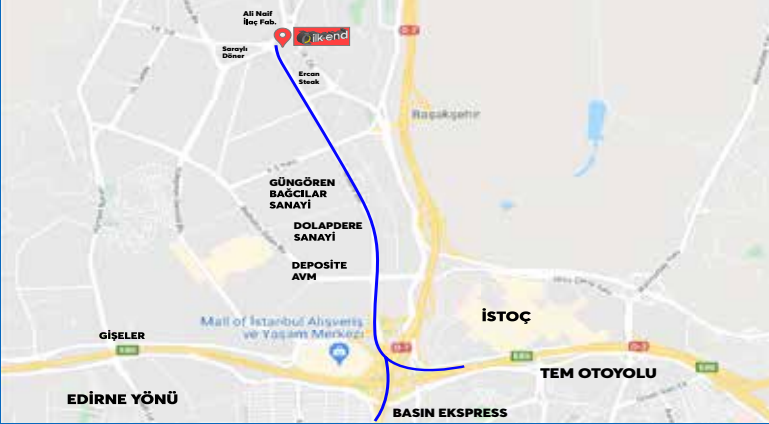

Gazpromneft produces more than 400 synthetic, semi-synthetic and mineral engine oils for gasoline and diesel passenger cars and trucks using the most modern technology. GAZPROMMNEFT products are approved by more than 50 leading world engine manufacturers. It is sold in over 70 countries.

- Industrial Oils
- Hydraulic Oils
- Reducer Oils
- Compressor Oils
- Turbine Oils
- Extinguishing Oils
- Processing Oils / TDAE
- Sled Oils
- Rolling Mill Oils
- Oils for Paper Machines
