

Fleetguard®

Put Filtration Science to Work for Your Cat® Equipment

From dusty air to dirty fuel, engines are constantly under attack in a mining environment. In fact, particles smaller than a blood cell can stop a 700-ton earthmover in its tracks.

Fleetguard filter products — air, hydraulics, transmission, lube, fuel and more — provide the best protection possible for your Cat® mining equipment, with extended maintenance cycles, fewer breakdowns and lower repair costs. Let our filtration science help boost your productivity and your bottom line.

Run Cleaner, Longer
